Education

Lakshmi Narain College Of Technology   Expected July 2024
Bachelor of Technology in Computer Science (CGPA: 8.93 / 10.00)   *Bhopal, Madhya Pradesh*
- **Relevant Coursework:** Data Structures and Algorithms (Java), Operating System, Database Management System, Object Oriented Programming, Computer Networks, Project Management.

Experience

HKRP Innovations LLP   Jan 2024 – Present
Full Stack Developer   *Ahmedabad, Gujarat*
- Implemented Angular framework for creating dynamic web applications.
- Utilized C# and .NET framework for backend development.
- Designed and maintained MySQL databases, including writing complex queries and utilizing LINQ for data manipulation.
- Integrated MQTT & Kafka for real-time communication in IoT projects.
- Conducted thorough testing and debugging to ensure high-quality code and functionality.
- Collaborated with team members to design and implement solutions for client requirements.

Technical Skills

Languages: Java, JavaScript, TypeScript, C#
Frontend Technologies: HTML, CSS, jQuery, Bootstrap, Chart.js, Three.js, React.js, Angular, Next.js
Backend Technologies: Node.js, Express.js, MongoDB, MySQL, LINQ, ASP.NET
Version Control: Git, GitHub
Message Brokers: RabbitMQ, Kafka

Projects

NextStream Conference | *Next.js 14, Stream, Tailwind CSS*
- Developed NextStream Conference, a real-time video conferencing application using Next.js 14, Stream, and Tailwind CSS.
- Provides users with a seamless and intuitive platform for hosting and participating in video conferences.
- Facilitates remote collaboration and communication, enhancing productivity for distributed teams.

Chatroom | *MERN Stack (MongoDB, Express.js, React.js, Node.js)*
- Developed Chatroom, a modern chat application utilizing the MERN stack for real-time communication and collaboration.
- Provides users with a secure and intuitive platform for instant messaging.
- Enables seamless interaction and connectivity among individuals and teams, fostering collaboration and productivity.

Pinfinity | *Express.js, MongoDB*
- Built Pinfinity, a Pinterest-inspired clone, using the Express.js framework and MongoDB database.
- Designed to provide users with a platform for discovering, organizing, and sharing visual content.
- Enables users to create boards, save pins, and explore curated collections of images and ideas, fostering creativity and inspiration.

Certifications

Wipro Talentnext - Java Full Stack
Issued Oct 2023

Cisco AICTE Virtual Internship - Networking
Issued Sep 2023

Smart Internz Virtual Internship - Salesforce Developer Catalyst
Issued Jan 2023
